

GENERAL RULES

Overview:

IRISH COINS – HOLD & WIN is a 3x5 video slot with 20 paylines featuring an accumulation system with 5 collection pots that awards multipliers when filled, plus re-triggerable free spins. Players can access a bonus wheel and the signature Hold & Win bonus round, both offering substantial multipliers and opportunities to claim the Jackpot prize.

Main game:

The maximum total multiplier for any game round is 5000x, after which no further wins will be awarded.

Only the highest win per bet line is paid.

Bet line wins pay if in succession from the leftmost reel to the rightmost reel.

Wild substitutes for all symbols except the Coin symbol.

Any 2 symbols, excluding the Coin symbol, are randomly selected to appear in stacks with each new game.

Coin Collection Feature:

When a Coin symbol appears, it will flip off to reveal a hidden symbol and fall into the collection pot beneath the respective reel. When a pot has collected 3 Coins, its associated feature will be triggered.

- Pots under reels 1 & 5 awards 5x Total Bet
- Pot under reel 2 awards 7 Free Spins
- Pot under reel 3 triggers the Hold & Win bonus
- Pot under reel 4 triggers the Bonus Wheel

The number of coins collected in all pots is unique to each bet size.

Hold & Win:

This bonus starts with 3 spins. Each new coin or instant multiplier symbol received in any of the 15 independent grid positions will reset the spins meter back to 3.

Coin prizes hold their position while instant multiplier symbols don't. Coins will reveal any of the following random multipliers (x Total Bet): 1x / 2x / 3x / 4x / 5x / 6x / 7x / 8x / 9x / 10x / 12x / 15x / 20x / 25x / 30x / 40x / 50x / 75x / 100x / 200x / 500x.

Instant multipliers can appear once per spin and will multiply all collected coins by 2x, 3x, 4x or 5x. Note: Instant multipliers can only be applied if there is at least one coin prize in the grid and the grid is not fully filled with coins.

Hold & Win bonus ends when spins run out OR all 15 positions fill with coins.

The 2000x Jackpot prize is awarded if all 15 positions are filled with coins.

Players can buy their way into the Hold & Win bonus directly from the base game in jurisdictions that support Bonus Buy features.

Bonus Wheel:

Randomly awards (x Total Bet): 10x / 20x / 30x / 50x / 80x / 100x / 200x, 500x, or the 2000x Jackpot prize.

Free Spins:

7 Free Spins are awarded from the respective collection pot.

Collection pots will reset when entering Free Spins. Any coins already collected from the base game will be banked until Free Spins has concluded.

During Free Spins, collecting only 1 coin will trigger a collection pot feature.

Since 3 coins can appear in a single reel, it means that 5x Multiplier will be awarded 3 consecutive times, 21 Free Spins will be re-triggered, plus all Bonus Wheel and Hold & Win prizes will be multiplied by 3x, excluding the Jackpot prize.
