

THOR OF ASGARD | JACKPOT DESCRIPTION

Thor of Asgard has a single player local 3-Tier progressive Jackpot that is built into the game's RTP.

Any of the 3 Jackpot prizes are awarded from the Bonus Wheels which are accessed after triggering 3 or more Scatters during Free Spins Bonus.

- 3 Scatters triggers the 1st wheel which can award MNOR Jackpot.
- 4 Scatters triggers the 2nd wheel which can award MNOR or MAJOR Jackpot.
- 5 Scatters triggers the 3rd wheel which can award MNOR or MAJOR or GRAND Jackpot.

0.85% of every bet is distributed amongst the 3 Jackpot prizes as follows:

PROGRESSIVE	RESET	CONTRIBUTION
GRAND	1500 x Total Bet	+0.10% contribution from each bet
MAJOR	200 x Total Bet	+0.25% contribution from each bet
MINOR	50 x Total Bet	+0.50% contribution from each bet

So, if 100 games were played on a £10 bet, the GRAND prize would be £15,001.00, MAJOR would be £2,002.50 and MINOR would be £505.00

Example Calculation:

MINOR: £500 + (£10 x 0.5% contribution x 100 games) = £505.00
