

Overview

TROPHY SPINS is a 9-reel game with scattered awards, hold & re-spins, and a Lotto-style picker bonus.

RTP% (Return to Player%)

Theoretical RTPs Available: 89.98%, 92.04%, 93.99% and 95.95%.

Main game

The maximum total multiplier for one game round is 1,111.11x.

All wins are scatter pays.

After the player starts the game, a “lucky” symbol is selected and displayed.

The lucky symbol is chosen among all the non-bonus symbols.

If three or more symbols matching the lucky symbol occurs, the lucky symbols will lock, and the remaining reels will re-spin.

If any additional lucky symbols appear, then those symbols will lock, and all remaining reels will re-spin again. This will occur until no additional lucky symbol appears.

Non-lucky symbols are not eligible for additional awards due to any re-spins.

The player is paid based upon the final number of lucky symbols and that pay amount is doubled.

BALLER BONUS

The bonus game is awarded when 3 or more Bonus symbols appear in any position.

10 footballs are presented to players after being shuffled. Players can select 5 balls for coins and multiplier awards.

The sum of the coins will be multiplied by the sum of the multipliers. If 5 multipliers are selected, the award is 100x the sum of the multipliers.

Final awards are multiplied by the bet multiplier. The bonus is then multiplied depending on the number of bonus symbols that trigger the game.
